Mujtaba Rizvi

Software Developer, Digital Strategist & Project Manager | Expert in
Agile & Business Analysis
Mississauga, Ontario, Canada

Summary

I'm a results-driven Digital Strategist, Software Developer, Project Manager, and Business Analyst with over 4 years of experience bridging the gap between technology and business. I specialize in transforming complex business challenges into scalable, user-centric solutions by leveraging a versatile tech stack—including Python, Java, C#, HTML, CSS, JavaScript, and PHP—and modern digital tools. My background spans developing dynamic websites, implementing AI-powered chatbots, and executing data-driven SEO and social media strategies that boost engagement and drive operational efficiency.

Working across Canada and the USA, I've honed my ability to manage projects end-to-end using agile methodologies, ensuring that every solution aligns with strategic business objectives while meeting rigorous technical standards. I excel at collaborating with cross-functional teams to gather requirements, define technical specifications, and deliver high-impact projects on time and within budget. Whether I'm spearheading a website redesign, optimizing user experience, or coordinating multifaceted business development initiatives, I bring a proactive, analytical, and innovative approach to every challenge. Let's connect if you're looking for a tech-savvy leader who can turn insights into action and drive meaningful digital transformation.
